Extra Tasks for Smarty Pants

Using the following website find out how to create a chart in Microsoft Excel.

http://www.teach-ict.net/software/excel_2007/charts/chart_creating_basic.htm

Open up Excel and enter the following information:

Name	Height (cm)
Tahlia	140
Farida	130
Marwan	160
Ricci	150
Ahmed	170
Aly	165

When you have added the information your task is to turn it into a chart.

Print both the data and the chart and show it to me.
